Date: 19.08.2020

CIRCULAR

The hospitals are admitting the patients with reference from the BBMP war room and also online allotment of beds. The preauths submitted by the hospitals is for a period of 10days initially which is auto authorized. The claims process has started from these hospitals. Some of the patients who were deteriorating in their medical condition were found to be upgraded to the next category of treatment for the sake of better management of the patient and also to accommodate the inter category migration of patients. These inter facility enhancement within first 10 days was allowed as the time required to get the documents validated will be very short and also the delay in enhancement could affect the progress of the patient. Hence the inter category enhancement can be made by the hospital which will be validated at the time of claims. Hospitals which need extension of management after 10days have to submit the enhancement and can discharge the patients in the next 5 days without waiting for the enhancement. Such enhancement will be validated in the claims submitted based on the documents.
